

Children's Centre Parents as Partners Policy

Every Child Matters									
Be Healthy		Stay Safe		Enjoy and Achieve	✓	Make a Positive Contribution	✓	Achieve Economic Well-Being	

Parental/carer involvement is an integral part of the philosophy behind the Children's Centre.

The Children's Centre encourages, promotes and welcomes:

- An open door Policy to all parents and carers at all times.
- Parental participation in all Children's Centre activities.
- Parental involvement in fund raising events and social evenings.
- One to one discussions with parents and carers, regarding their child's progress and development both at home and at the Children's Centre.
- The giving and receiving of relevant information, especially with regard to their child's development. This is achieved through the sharing of information between parent/carer and your child's key person.
- We do this by using WOW stickers, speech bubbles, Summative assessments and Verbal communication which is then recorded into their child's personal pathway and book of achievements.
- Friendly, approachable, informative and helpful staff.
- Respect and maintain confidentiality.
