Computing

T Level Transition Programme  
in Computing

T Level in Computing

The rapidly expanding and ever-changing world of computing is an exciting place to be, particularly at Yeovil College. Our Computing department has received a significant share of the Institute of Technology (IoT) funding which has enabled us to build a new top-of-the range, industry hardware suite. The dedicated IT Lab is perfect for the configuration of networking components and software development for popular games development units. There are lots of options for you if you have an interest in this area and we can help match your appetite to the right course.

We have introduced our new ESports and gaming units which meets the ever-growing culture of sports competition using video games. Whether you aspire to develop websites, programme new and innovative databases or design your own games, we are confident that we have the perfect Computing qualification for you.

## Which level is right for me?

We have a course to suit everyone, at all levels and abilities.

## Where will you study?

## Student Experience

Yeovil College University Centre student, Paul Richardson, delivered Cyber Security sessions to our Level 2 Computing students as part of his Foundation Degree in Computing.

A huge part of the curriculum is undertaking relevant work experience and industry placements across the region.

# Careers

## Did you know?

We are the only college in South Somerset to be represented within the Institute of Technology (IoT), allowing inward investment into the Computing curriculum area and the development of an IoT Computing Innovation Centre.

"Over recent years we have employed a number of students whom have completed their level 3 qualification at Yeovil College and found the skills they have developed to be the perfect match for our organisations needs."
