

INTERACT : CONSTRUCTION

Click here for a message from our Principal 

As one of the largest providers of construction education and training in the region, and thanks to our industry-standard facilities and excellent teaching, we are considered a Centre of Excellence. Our new Screwfix Trade Skills Centre provides unrivalled training facilities for the industry. Yeovil College offers hands-on training that will equip you to build a great career in one of many building trades whilst developing strong employability skills for the future. Our workshops are a real strength and we continue to invest in them to ensure that we provide the very best facilities for both employers and students. This year we created a multi-booth, industry-standard Fire and Security workshop to support our FESS apprentices and we are delighted to introduce a new Fire and Security qualification to this year's curriculum offer.

Fire & Security Engineer

"We boast some of the top construction facilities in the country, supported by local businesses; our results position us as one of the best performing construction departments in the UK; and we strive to place our students within apprenticeships as soon as they are ready and able. Employers actively contribute to the development of our Construction curriculum, ensuring that students leave Yeovil College with the right skills and behaviours to successfully enter the world of work."

**Scott Austin, Curriculum Area Manager,
Construction**

Did you know?

Our facilities are a key strength. At Yeovil College you will study in dedicated workshops which have been designed to replicate the workplace. There are separate workshops, with individual bays and work stations for every trade offered within our Construction department. You will also have the opportunity to visit live construction sites, specific to your trade, enabling you to enhance your knowledge and understanding of the industry. This is an important part of our student's work experience and immersion into the construction industry.
