

INTERACT : ENGINEERING

Click here for a message from our Principal 

Technology is moving faster now than at any time in history and it is our engineers who are driving that pace. Engineers will solve many of the problems facing the world today, such as equipping countries with the technology to make more efficient use of the increasingly scarce natural resources and even developing sustainable sources of energy for our future generations. Our aim is to provide a tailored study programme that will give you your own specialist knowledge, but also the basic skills and knowledge that employers are looking for. We offer programmes from Level 2 through to university level and degree apprenticeships, with many of our learners already in work and looking to further their career or enhance their skills.

Which level is right for me?

We have a course to suit everyone, at all levels and abilities.

Careers

Bricklayer
Building Surveyor
Carpenter
Electrician
Health & Safety Advisor
Heating Engineer
Joiner
Kitchen Fitter
Maintenance Technician
Plumber
Project Engineer
Fire & Security Engineer

"Here at the engineering department, the team is made up of sector experts, renowned for their skills and knowledge. You will have access to a Lynx helicopter where you can apply and develop new skills, understanding and theories. It is an exciting time to join the engineering department at Yeovil College! In partnership with the IoT, we are investing £500k in new state-of-the-art training equipment and software, allowing us to give you the expertise required to be successful in your chosen engineering career."

**Chris Caldwell, Curriculum Area Manager,
Engineering**

ENGINEERING TASTERS

My Future Career in Engineering

CAD Design Taster Session

Mechanical Engineering Lathe Operation
Taster Session

Aeronautical Engineering Taster Session

Electronic Engineering Taster Session

Mechanical Engineering (Hand Fitting) Taster
Session

Mechanical Engineering Taster Session

3D Printing Taster Session

Did you know?

We are one of only a handful of recognised Institutes of Technologies (IoT) in the country, which means that we are delivering a higher set of skills and knowledge within Engineering Industries mapped to the government's skills agenda. We are in the process of making a huge capital investment into our Engineering workspaces to ensure that they align to industry-standard environments.
