## Where will you study?

www.yeovil.ac.uk | #WhereLearningComesToLife

Sometimes students need some additional time, support and space before they are ready to progress to a full college study programme, which is where our Foundation Learning programmes can really help. Foundation Learning study programmes are individually tailored for young people with additional needs.

Yeovil College has an excellent track record of successfully supporting students with opportunities to progress on to other programmes, Apprenticeships or employment.

### Which level is right for me?

We have a course to suit everyone, at all levels and abilities.

**Our Preparation For Life and Work and Adulthood Programmes:** Focus on skills for independent living, employability and accessing the community.

**Progression Pathway:** These are Vocational courses and focus on progression onto further vocational study and work.

**Supported Internships:** Designed to provide students with an internship with local employers, developing skills for transition into the work place.

"Learners in the Preparation for Life and Work department are essential to events coordination at Yeovil College, not to mention the smooth running for our business operations. Every learner regularly leads and assists with challenging but rewarding tasks, including merchandise packing and recycling. In the process, every learner develops valuable social skills and knowledge of work systems."

Tim Gillet, Curriculum Area Manager,  
Foundation Learning

## FOUNDATION TASTERS

Supported Intern Role

Cooking Skills

Sports Relief is always a highlight in the Foundation Learning student's calendar. They hosted a mass 'Danceathon' spanning the full day with at least one person dancing at any given time. The atmosphere was electric!

Supported Internship students worked on a live brief to create a logo design. Jordan developed the winning logo, which will be applied to identify the group of Supported Internship students who work and learn directly in the workplace with their employers.

### Where will you study?

Courses are based at Yeovil College, Yeovil District Hospital, local employers and within the wider community; your work and study spaces vary according to the tasks and activities involved.

### Did you know?

Foundation Learning students spend a large proportion of their time, around 250 hours, working with Business Managers from across Yeovil College, some even have industry places within the college, which often progress to Supported Internships. They regularly work on projects such as delivering post, supporting marketing activities, selling and enterprise. Foundation Learning students are present right across the college in a supportive and helpful capacity; a true business asset to all at Yeovil College.
