

Wave 1

Universal Provision

Quality First Teaching (QFT)

These all the adaptations a teacher can make in class to meet need, including Normal Ways of Working (NWW). This can also in class support from a practitioner where it is not more concentrated / dedicated 1:1 (that would be more wave 3).

Wave 2

Specific, targeted & time related

Interventions/ regular meetings:

- SEND P /ASPs (apprentices /Adults)/ interventions teacher in FL/PP)
- Student Support/ Adult Pastoral Support

For Student Support, these are usually for a set time. For interventions with SEND need learners these should be too. For EHCP these may likely be more long term, but still need monitored and moved towards independence.

Wave 3

Specialist

- Specialist Personnel (SALT OT EP etc)
- Specialist equipment
- Dedicated 1:1

Foundation Learning and Progression Pathways: Wave 3 + because what is universally provided in FL and PP is above that which is the universal offer in other CAM Areas (smaller classes, same teachers etc).

Within FL and PP Wave 3 +: they will have the three waves (as above too).

If you feel ALS (EHCP/SEND) learner needs SEND support above and beyond that which can be met through QFT speak to the SEND P/ ASP (if apprentice or adult) for your area and/ or email alsreferral@yeovil.ac.uk
